! Please read the instructions before use

- The watch has a water resistance rating of IP68. It can be used normally in daily life such as washing hands, raining, etc. Do not put the watch in hot water or in the shower, do not perform underwater pressing operations or deep diving. Waterproof effectiveness may reduce with daily wear.
- Charge the battery for two hours before use. Please avoid overcharging at 100% for an extended time. Please use the charger with an input voltage of 5V/1A or 5V/2A and XINJI's original magnetic charging cable.
- Avoid touching the screen surface with sharp or sticky objects to avoid damage. Avoid dropping the product on the ground or being strongly impacted by other objects. Avoid exposing the watch to corrosive liquids to avoid damage to the watch.
- Avoid exposing the product to corrosive liquids or prolonged

- immersion in seawater or salty water, as it may cause corrosion and will not be covered under warranty. Product collisions, drops, or any visible signs of impact, including screen fractures, are not covered within the warranty scope. Do not disassemble the product or replace the battery without authorization.
- This product is not a medical device and cannot be used for medical purposes or as basis for diagnosis of any medical condition. Detection results are provided for reference only. Please consult professional medical institutions if you feel unwell.
- If the product fails, please contact the after-sales service department. The company reserves the right to change or modify all the information in the document without notice. Due to software upgrades, the functions may vary in specific software versions.

↓ APP download & login

Available on the **App Store**

GET IT ON **Google Play**
